Welcome to the 36th edition of **READY TO SHOW**, the first physical one after the pandemic!

Warm Welcome to our exhibitors from all over the world ! Most of the exhibitors are exhibiting for the first time in Milan and are eager to show that they can satisfy the requirements of Italian and European market.

Both Europeans and Non-Europeans have much to gain from better reciprocal knowledge and READY TO SHOW comes forward as the ideal place and time for this rendez-vous.

Italy is the most prestigious partner in Europe for non E.U. textile and garment industry.

Italian agents, importers, converters mean dynamism, flexibility and open-minded attitude.

Why should this natural encounter take place elsewhere?

Milan is the natural venue for a successful meeting point where Italia, European and non E.U. textile and clothing industrialists prepare for a smooth passage to a new era.

At READY TO SHOW we show case exhibitors from 15 countries including also a group of Italian companies in AREA ITALIA, from technology partners to fashion makers, upcoming designers, start-up with brilliant concepts, all have something special to offer

to demanding European/international buyers looking for the best not only in terms of creativity but also sustainability.

Round-tables, technological presentations , B2Bs and social events will complete the scenario in the refined environment of Una Hotel Expo Fiera Milano.

We value your comments and hope that you will pass on any ideas you may have to further improve the show. We hope you enjoy your participation and look forward to seeing you again in January 2024!

ACCRICCOSHUES

ACCRICCO was born in 2015 from Alessandro's idea of creating a new footwear concept. With the help of Matteo and Leonardo, of their dedication and common passion for footwear, the first ACCRICCO SHOES collection takes shape, a mix of creativity and quality. From the need not to feel turned off during the March 2020 lockdown, we decided to face this particular period by giving life to our project. We were able to create our collection in a short time, facilitated by our DOC Sangiustese origins. In fact, Monte San Giusto has been in the beating heart of the Italian footwear district since the early 1930s. Consequently, since childhood we have grown in close contact with the world of footwear.
